

## INSTITUTIONAL OBJECTIVES

1. Promote academic performance by providing opportunities for personal development.
2. To provide opportunities to keep abreast of the latest developments in technology.
3. To increase public awareness and sensitivity to environmental issues by providing a platform for people to express their views.
4. To encourage individuals to refine their research skills and to cultivate a curiosity for research.
5. To increase community awareness through extension efforts.
6. To provide educators with the skills and information necessary for practical implementation using a range of methods
7. To use an international perspective to teach pupils to respect variation
